Dear Sponsors of the Flint Regional Science Fair,

Thank you for making our fair and trip to ISEF possible. This was definitely the best ISEF of the three I've been to. First, the weather in California was fantastic, not too hot and very dry. We were able to go to local restaurants near the hotel and enjoy the pool and sun. The IHOP CinnaStak Pancakes were awesome! :)

ISEF itself also stole the show with the free night at Universal Studios Hollywood. Mr. Aubin and Mrs. Vincil were great chaperones and convinced me to go on Jurassic Park: The Ride. I think I could hear Mrs. Vincil regretting her decision on the final uphill climb before the 84-foot drop. We got wet since we were sitting in front but we all enjoyed the ride.

The absolute high point of the trip was when Nithin and I won best in category and Lois won a physics special award.

Thanks again for making all of this possible.
